Introduction

In this document, I explain how to open a **three-months-free** Google Cloud Platform (**GCP**) account.

There might be other ways than explained here, but I can only pass on what I have been doing.

Google practices might change from time to time due to continuous improvement, therefore some of the steps in this document might become out-of-date.

I learned about **Google Cloud Platform** in a Bootcamp by **Istanbul Data Science Academy**.
<https://istdatascience.com/>

Thank you very much **Google** and **Istanbul Data Science Academy**!

PREP for the Main Process

If you do not have a Gmail account, you can skip this section and go to the next section — Main Process.

Step 1. Bookmark your existing Gmail accounts

To be able to get a free GCP account, we will sign out of our gmail accounts.

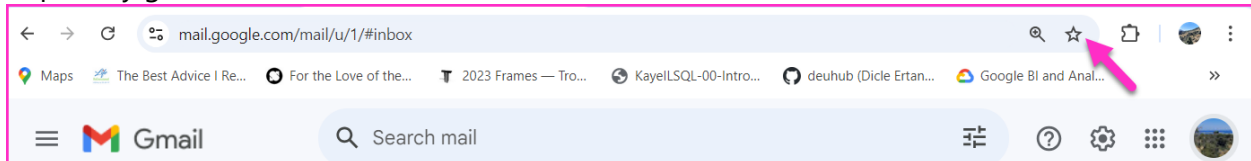

To be able to sign in again quickly and easily, it is best to bookmark your existing Gmail accounts, if they are not bookmarked already.

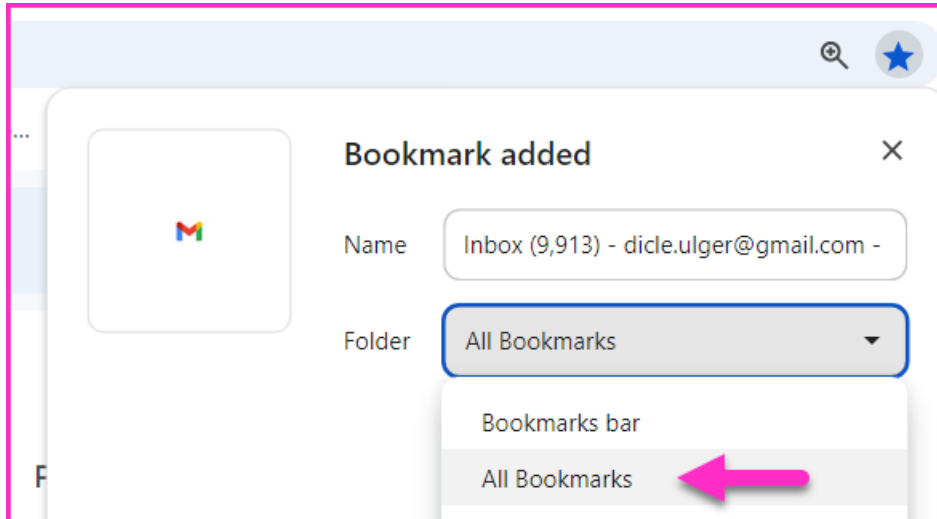

I have two Gmail accounts that I use frequently.

Here is how I bookmark them.

I open my gmail, and click on the **STAR ***.

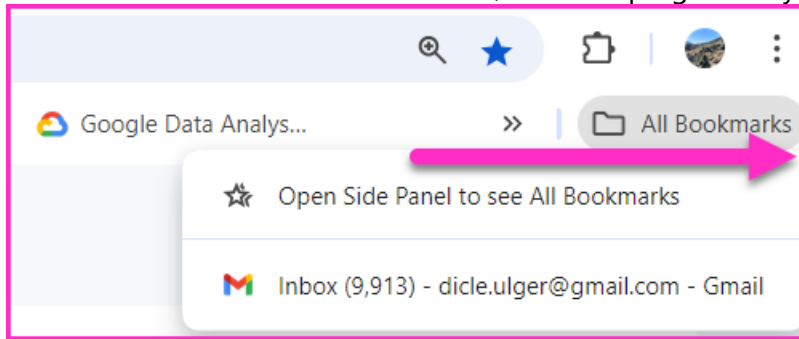

I add this Bookmark to the **All Bookmarks** folder.

How to Open a three-months-free GCP Account

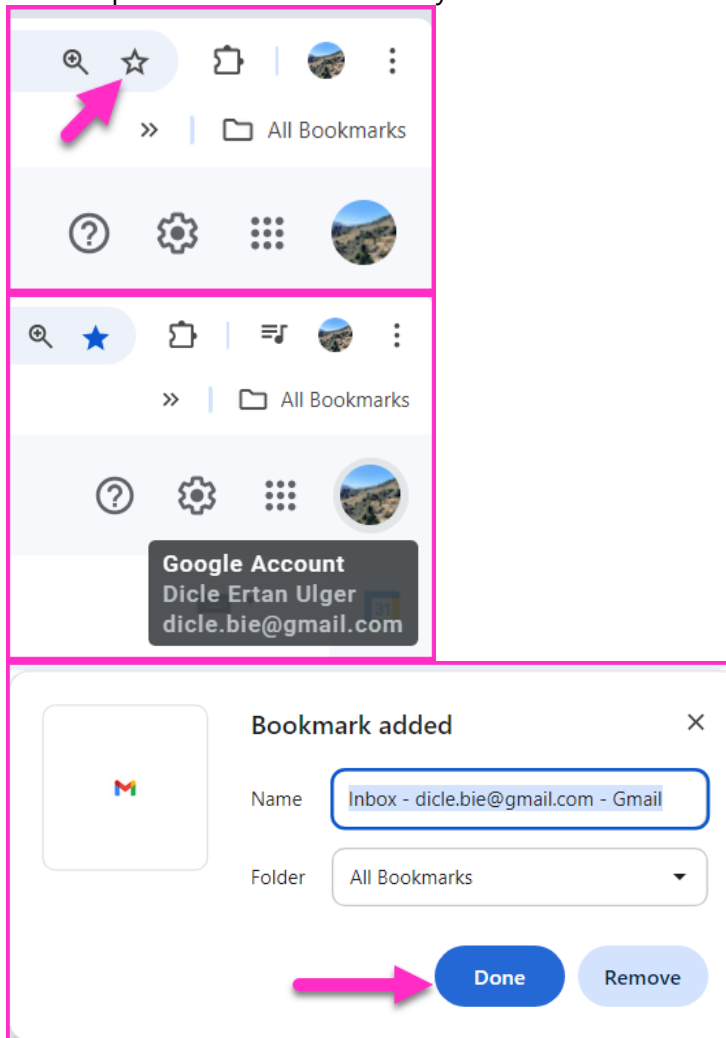

And here is the **All Bookmarks** folder, on the top right of my browser.

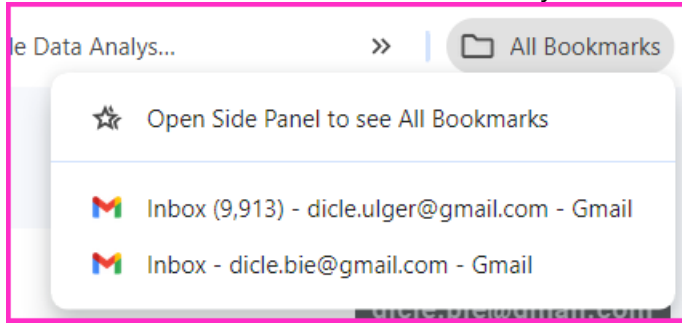

I can access my Gmail anytime I want to.

~~Of course, you can use any other folder of your choice 

I now repeat the bookmark for my other Gmail account.

Here is the **All Bookmarks** folder, with my two Gmails Bookmarked.

Step 2. Write down the passwords of your Gmail accounts

I keep my **Gmail e-mail passwords** handy, somewhere I can reach easily.

I write them down, so that when I sign in again and Google asks me what they are, I can easily find them.

Step 3. Sign-out of all your Gmail accounts

We now sign out of all of our Gmail accounts.

I believe this is essential to be able to get a new **free** Google Cloud Account, and a new Gmail for that Google Cloud Account.

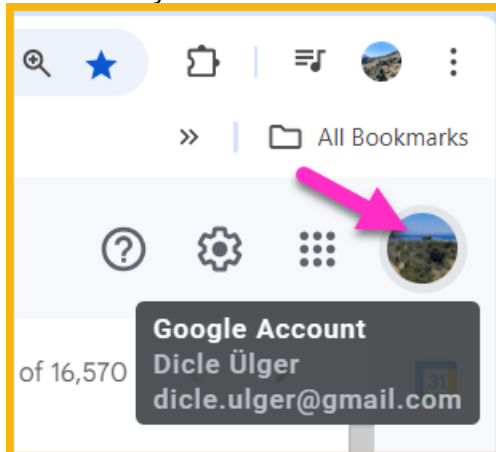

There might be other ways, but this is what worked out for me.

During the coming steps, until after we open a new free GCP account, we will not be able to receive any Gmail e-mails.

When we complete the process of opening a free GCP account, we can sign-in again.

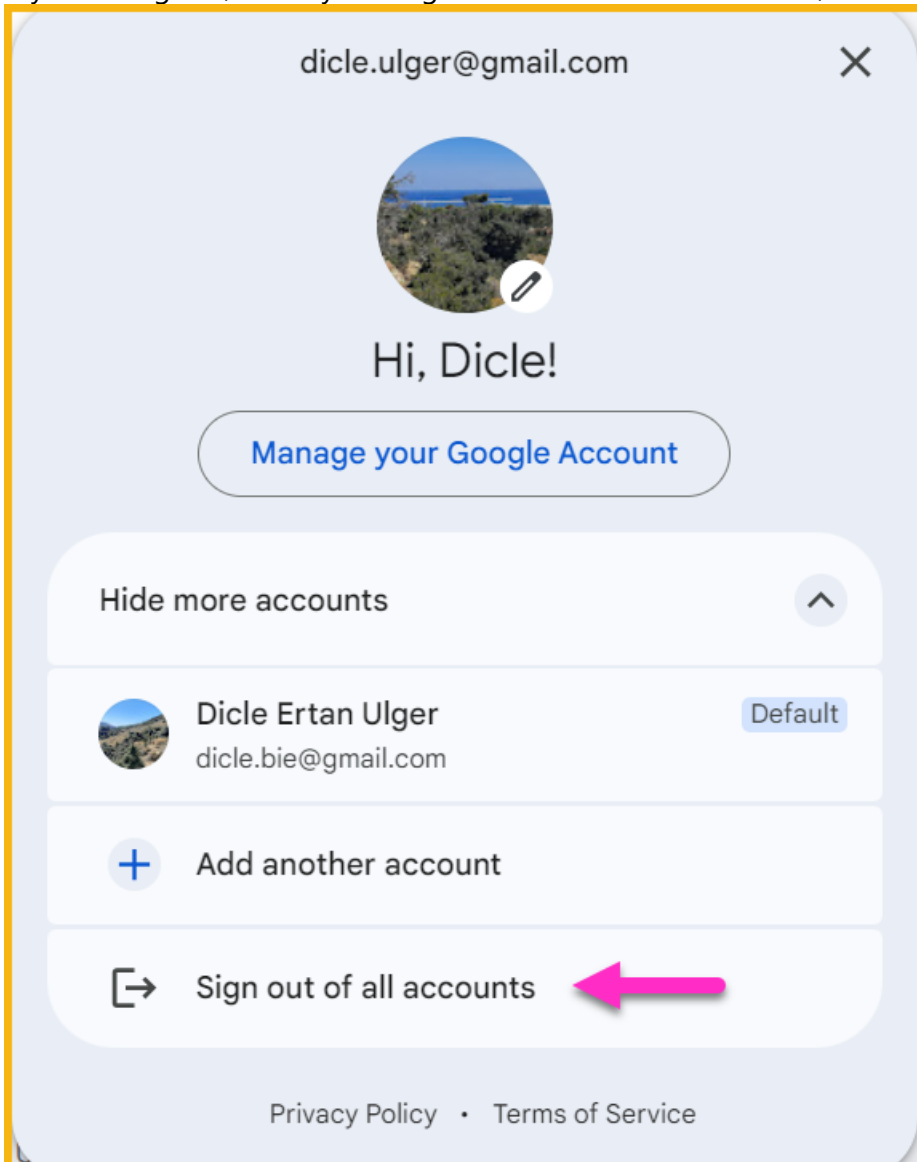

This is how I sign out.

I click on my Profile Picture which is on the top right corner.

How to Open a three-months-free GCP Account

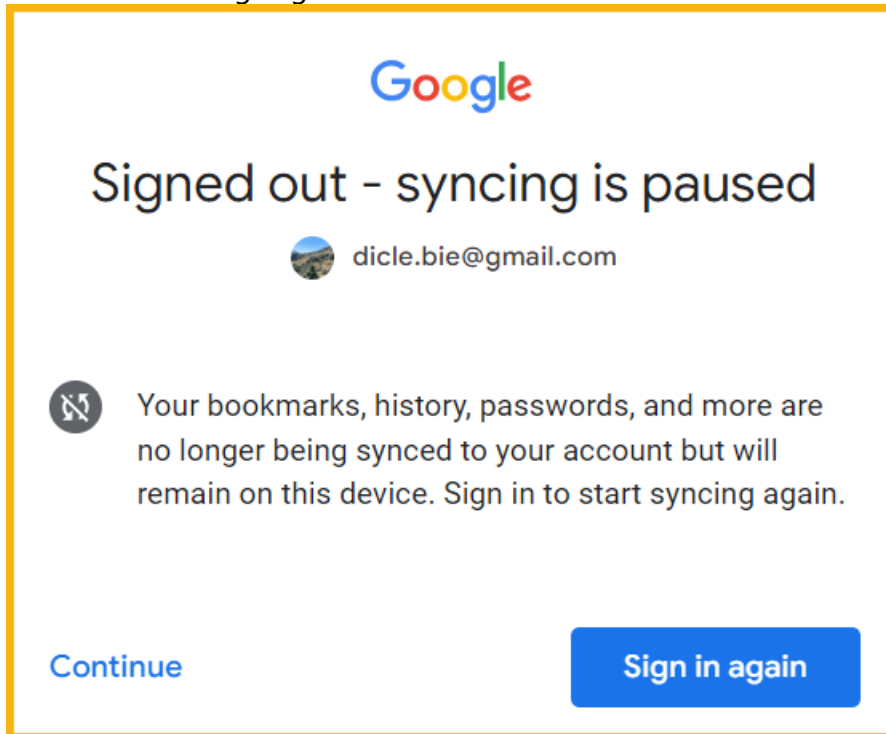

My current gmail, and my other gmails if connected to this one, are all displayed.

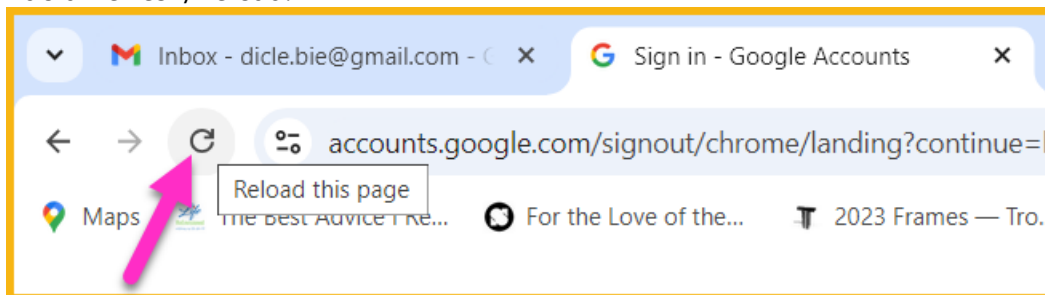

I click on the last option: **Sign out of all accounts**

How to Open a three-months-free GCP Account

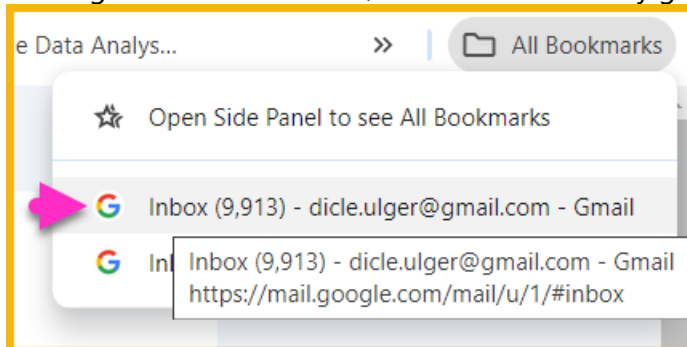

Here is the message I get.

I do a Refresh/Reload.

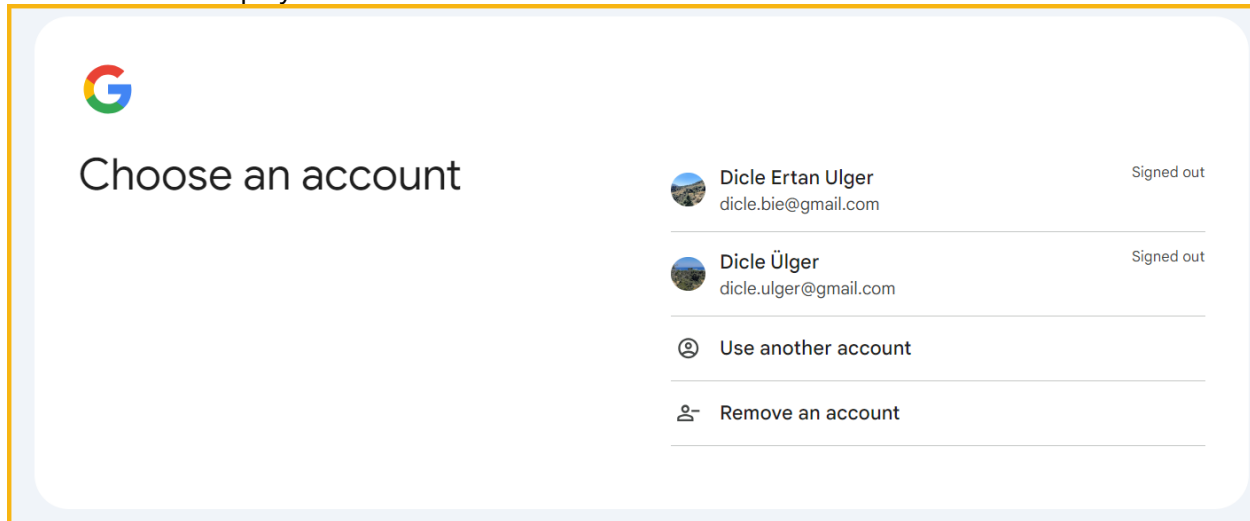

I then go to **All Bookmarks**, and select one of my gmail accounts.

How to Open a three-months-free GCP Account

Here is what is displayed.

I have signed out of all my gmail accounts.
This is exactly what I wanted.

So far;

- We Bookmarked our existing Gmail Accounts
- We wrote down our Passwords for our Gmails for easy access later
- We signed out of all of our Gmail accounts

We can now start the Main Process of Opening a three-months-free Google Cloud Account.

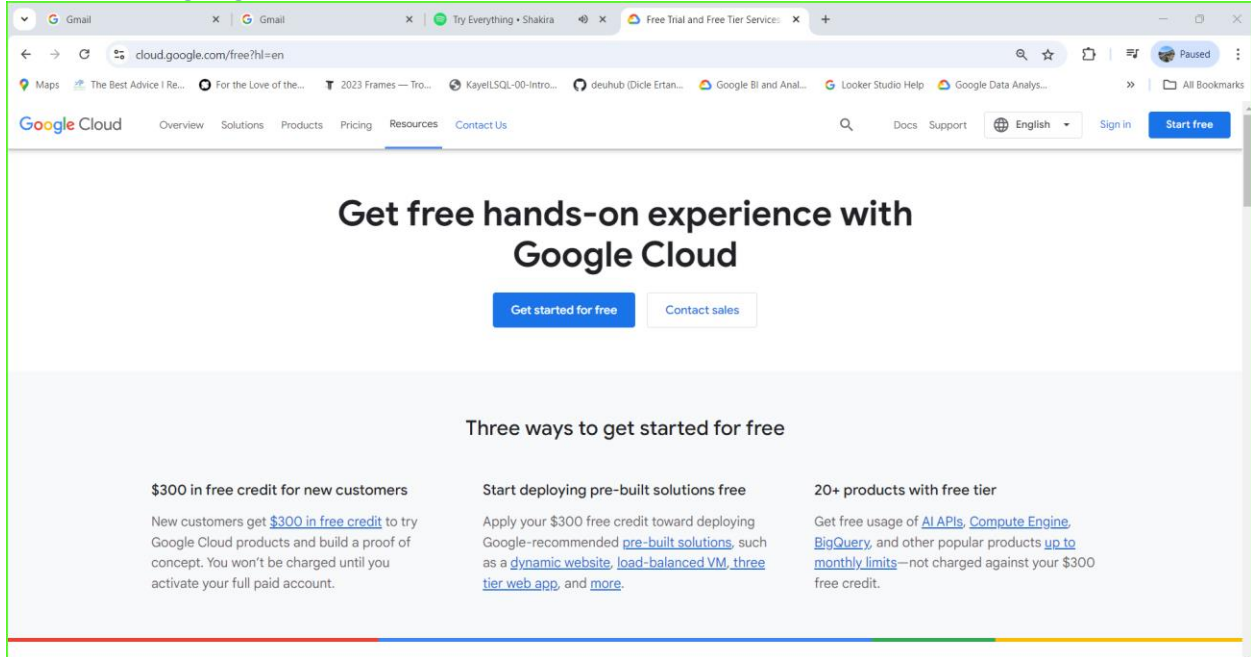

Main Process: Open a three-months-free GCP Account

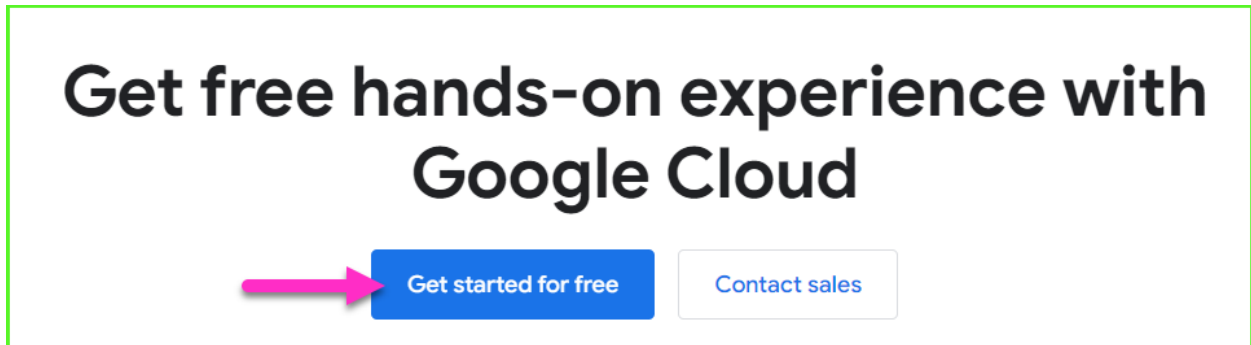

Step 1. <https://cloud.google.com/free>

I go to the address below.

<https://cloud.google.com/free>

I click on the button **Get started for free**.

Step 2. Select "Use another account"

Google gives me the following screen.

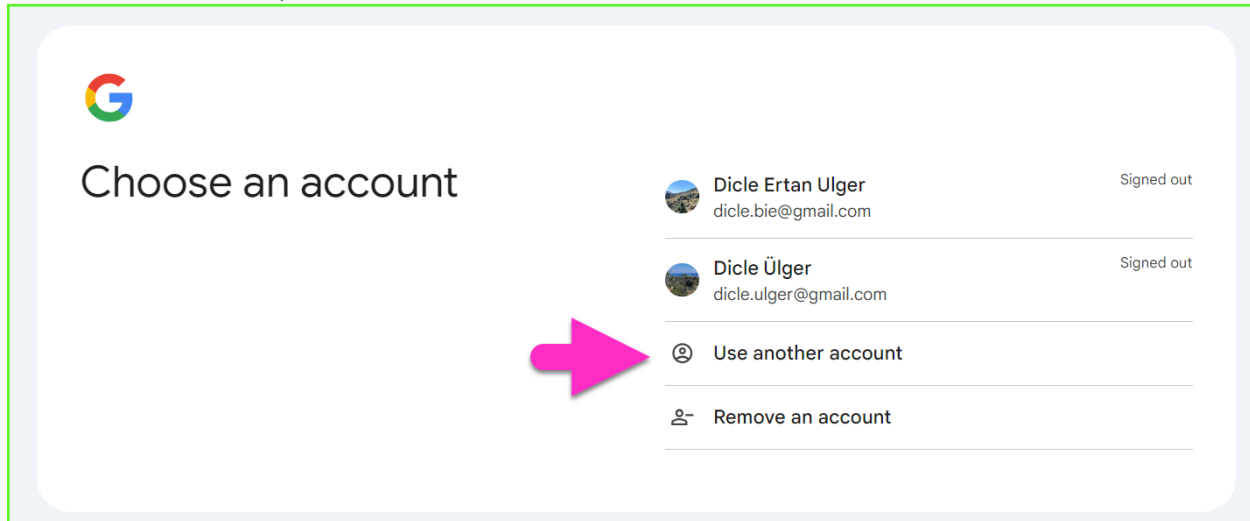

Google wants me to Choose a Gmail Account.

I can either "Use one of my existing Gmail Accounts", or "Use another account".

I will NOT use one of my existing accounts.

I will Create a new account, for my new three-months-free GCP.

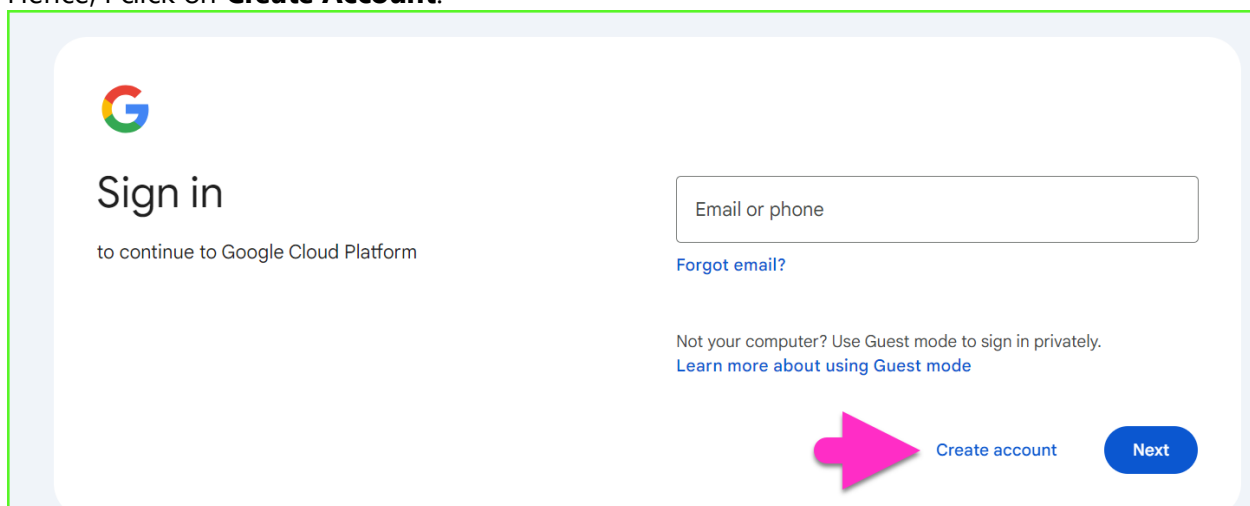

To be able to do that, I click on **Use another account**.

Step 3. Select "Create account"

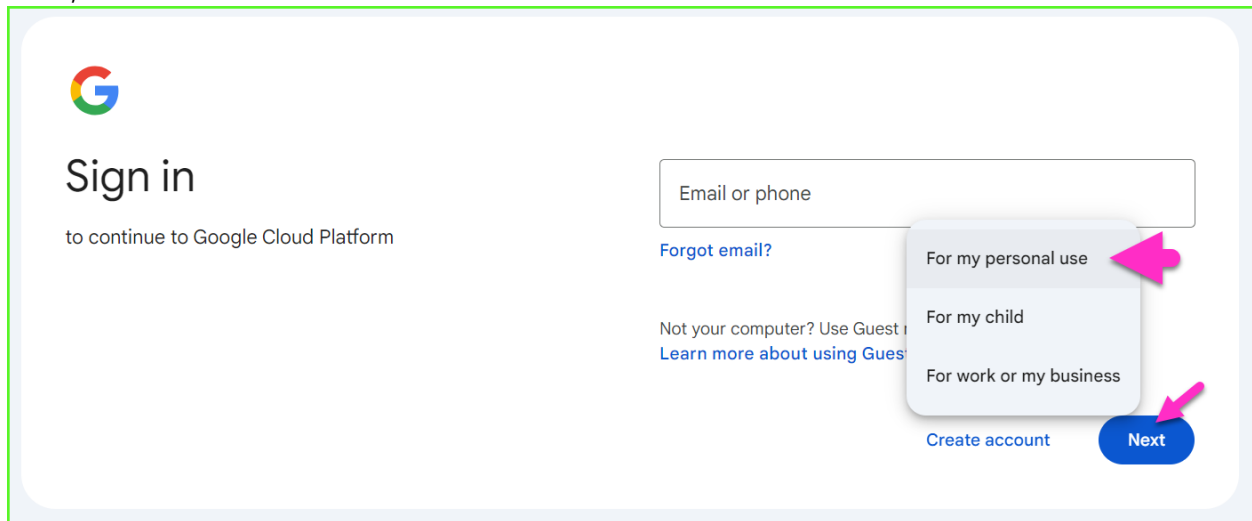

Google still expects me to type in another e-mail or a phone number, but I will **Create a new account**.

Hence, I click on **Create Account**.

How to Open a three-months-free GCP Account

When I click on **Create account**, Google gives me three options.
I click on **For my personal use**.
Then, I click on **Next**.

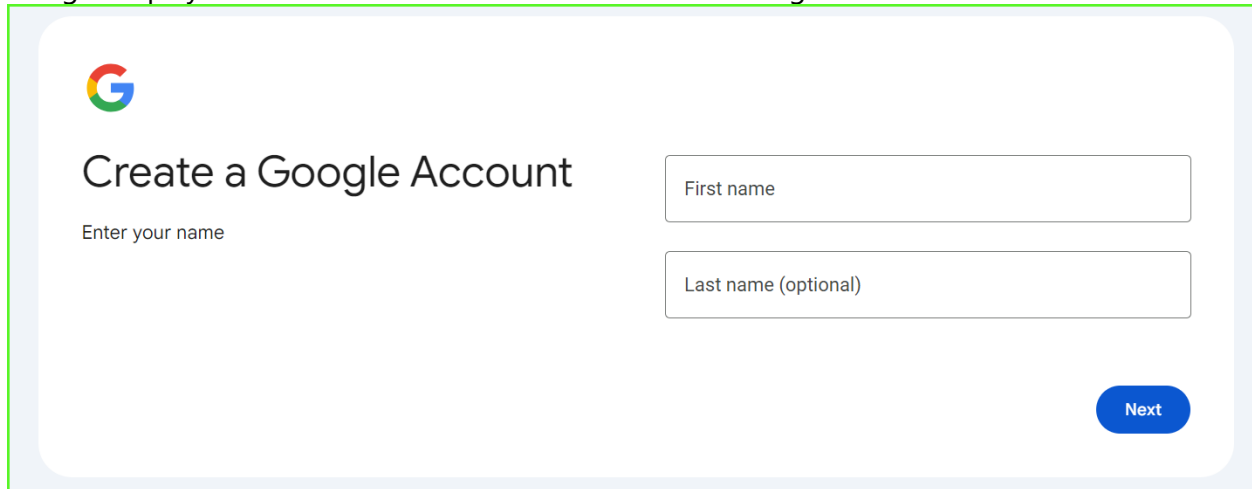

The screenshot shows the Google Cloud Platform sign-in page. On the left, the Google logo is above the text "Sign in" and "to continue to Google Cloud Platform". In the center, there is a text input field labeled "Email or phone". Below it are links for "Forgot email?", "Not your computer? Use Guest", and "Learn more about using Guest". On the right, there is a "Create account" button. A dropdown menu is open from the "Create account" button, showing three options: "For my personal use", "For my child", and "For work or my business". A pink arrow points to the "For my personal use" option. Below the dropdown menu is a "Next" button, also with a pink arrow pointing to it.

Step 4. Enter Name

Google displays a new screen so that I can create a new Google Account.

Create a Google Account

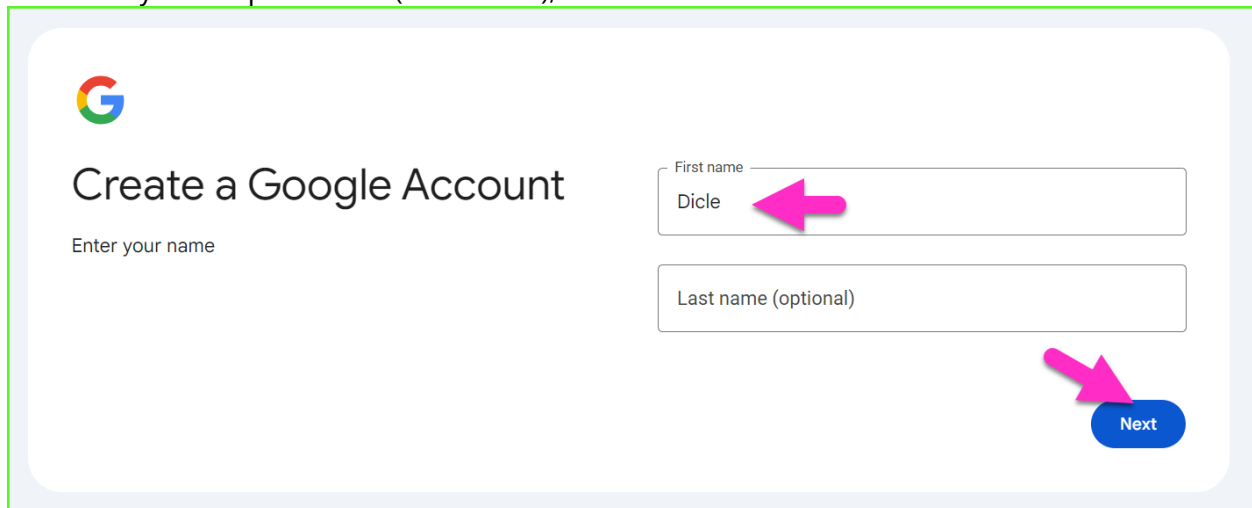

Enter your name

First name

Last name (optional)

Next

I enter only the required field (First Name), then click on Next.

Create a Google Account

Enter your name

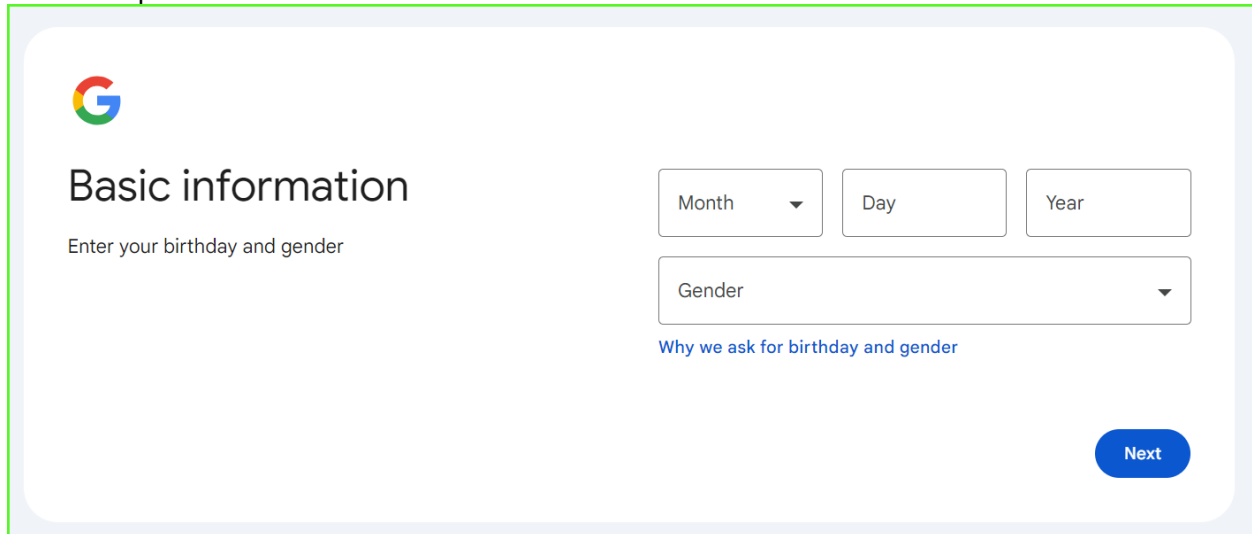

First name
Dicle

Last name (optional)

Next

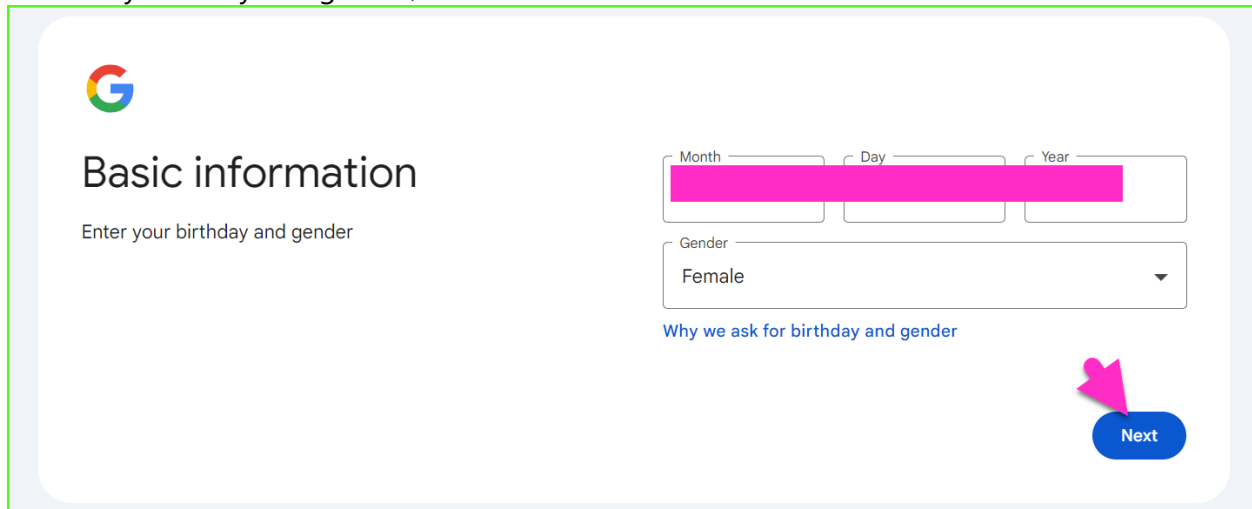

Step 5. Enter Birthday and Gender

Time to input Basic Information.

The screenshot shows the 'Basic information' step of the Google account creation process. On the left, there is the Google 'G' logo, the title 'Basic information', and the instruction 'Enter your birthday and gender'. On the right, there are three input fields for 'Month', 'Day', and 'Year', followed by a 'Gender' dropdown menu. Below these fields is a link that says 'Why we ask for birthday and gender'. At the bottom right, there is a blue 'Next' button.

I enter my birthday and gender, and click on Next.

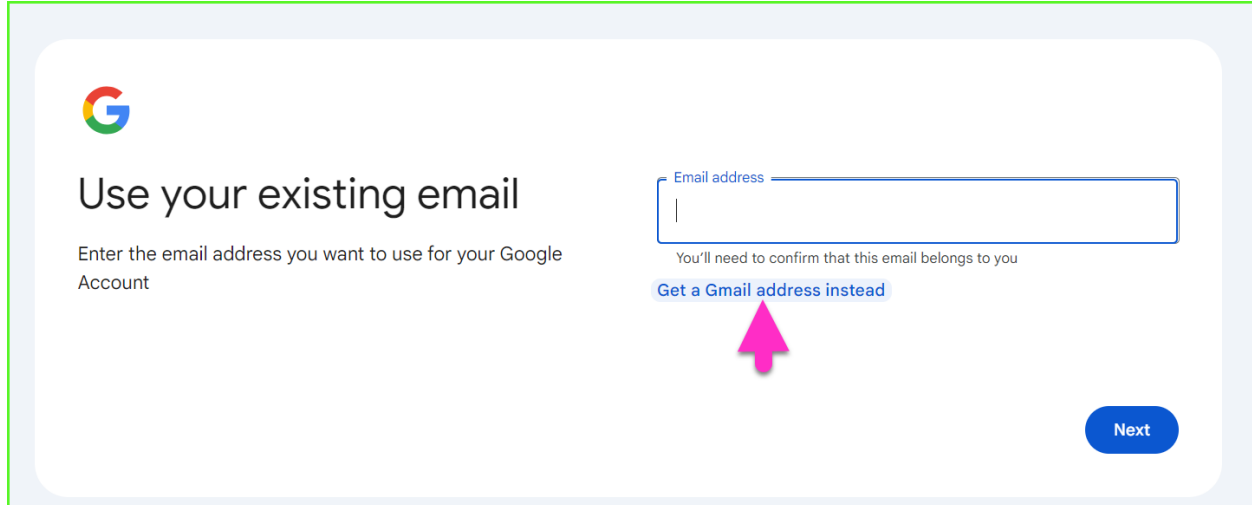

This screenshot shows the same 'Basic information' step as the previous one, but with user input. The 'Month', 'Day', and 'Year' fields are now filled with a solid pink color. The 'Gender' dropdown menu is set to 'Female'. A pink arrow points to the blue 'Next' button at the bottom right. The rest of the page layout, including the Google logo and the 'Why we ask for birthday and gender' link, remains the same.

Step 6. Select “Get a Gmail address instead”

Dear Google still wants me to use one of my existing emails, however I will **Get a Gmail address instead**, a new one for my free account.

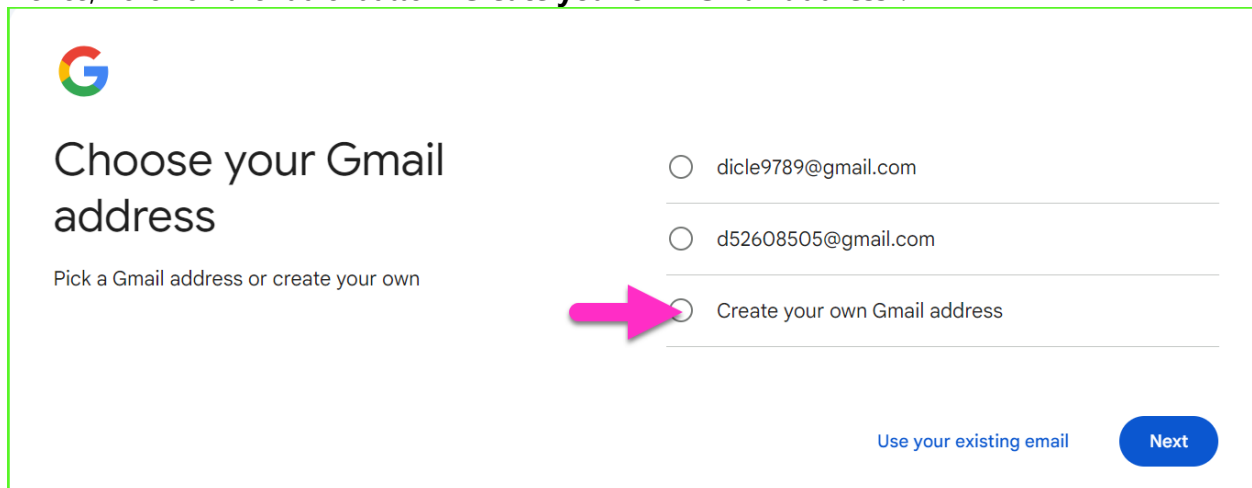

Hence, I click on **Get a Gmail address instead**.

The screenshot shows the Google account creation interface. On the left, the Google logo is at the top, followed by the heading "Use your existing email" and the subtext "Enter the email address you want to use for your Google Account". On the right, there is a text input field labeled "Email address". Below the input field, the text "You'll need to confirm that this email belongs to you" is displayed. A link labeled "Get a Gmail address instead" is positioned below the input field, with a pink arrow pointing to it. A blue "Next" button is located at the bottom right of the form.

When I click on **Get a Gmail address instead**, Google offers me some gmail addresses it created, but I prefer to create my own.

Hence, I click on the radio-button “**Create your own Gmail address**”.

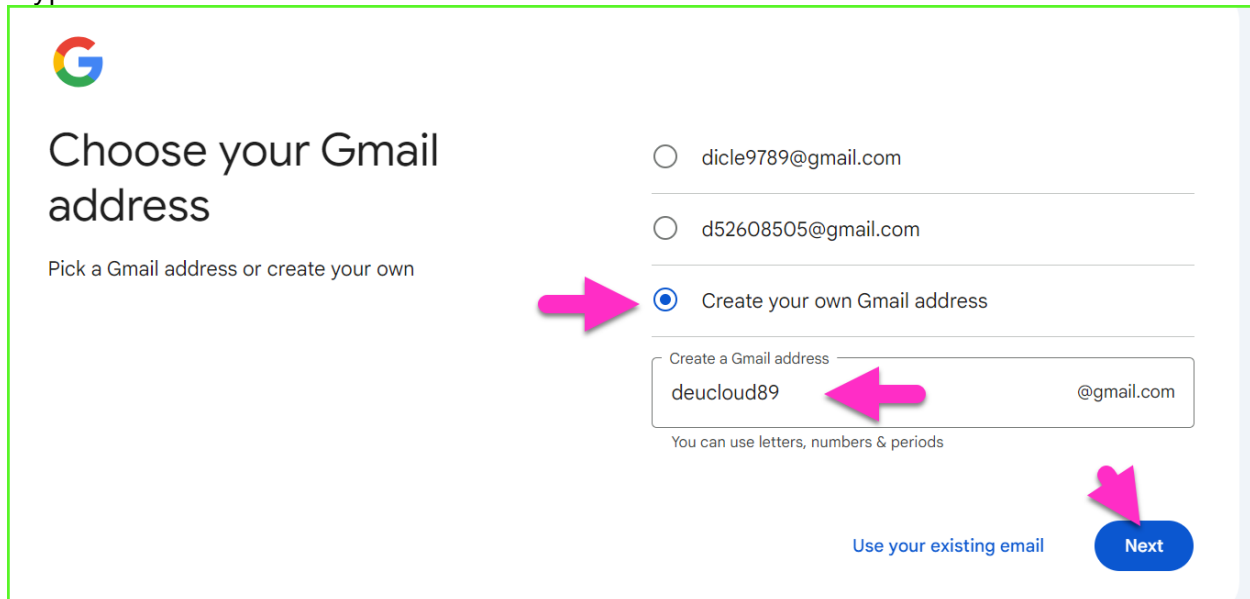

The screenshot shows the Google account creation interface for choosing a Gmail address. On the left, the Google logo is at the top, followed by the heading "Choose your Gmail address" and the subtext "Pick a Gmail address or create your own". On the right, there are three radio button options: "dicle9789@gmail.com", "d52608505@gmail.com", and "Create your own Gmail address". A pink arrow points to the "Create your own Gmail address" radio button. At the bottom right, there is a link labeled "Use your existing email" and a blue "Next" button.

How to Open a three-months-free GCP Account

When I click on the radio button for **Create your own Gmail address**, Google opens a box for me to type a Gmail address of my own choice.

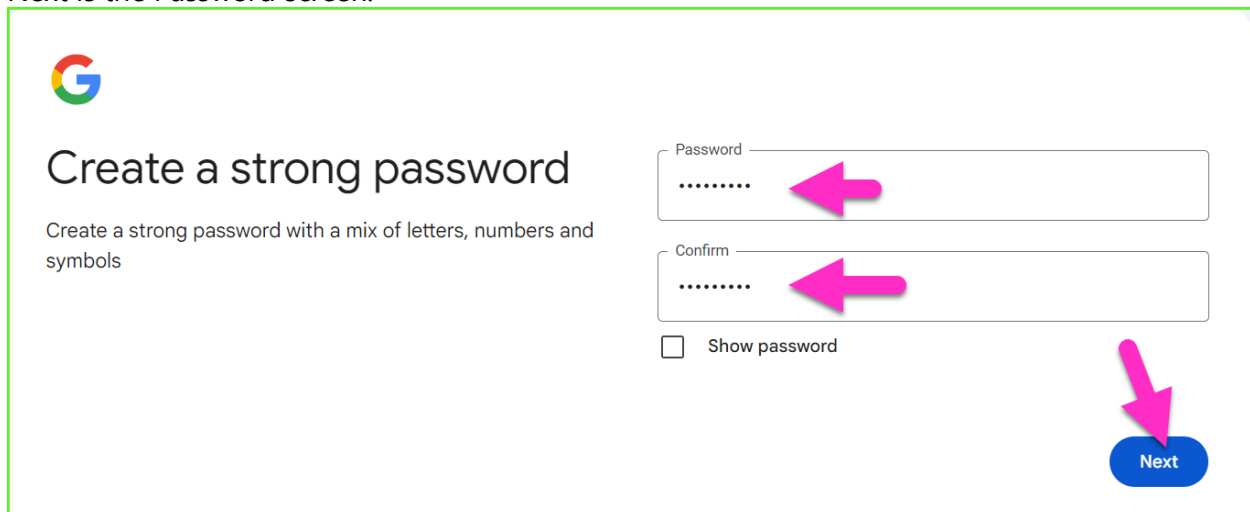

I type it in and click on Next.

The screenshot shows the 'Choose your Gmail address' screen. It features the Google logo at the top left. The main heading is 'Choose your Gmail address' with the subtext 'Pick a Gmail address or create your own'. There are three radio buttons: 'dicle9789@gmail.com', 'd52608505@gmail.com', and 'Create your own Gmail address'. A pink arrow points to the 'Create your own Gmail address' radio button. Below the radio buttons is a text input field labeled 'Create a Gmail address' containing 'deucloud89' and '@gmail.com'. A pink arrow points to the input field. Below the input field is the text 'You can use letters, numbers & periods'. At the bottom right, there is a blue 'Next' button with a pink arrow pointing to it, and a link 'Use your existing email'.

Step 7. Create a Password

Next is the Password screen.

The screenshot shows the 'Create a strong password' screen. It features the Google logo at the top left. The main heading is 'Create a strong password' with the subtext 'Create a strong password with a mix of letters, numbers and symbols'. There are two password input fields: 'Password' and 'Confirm'. Both fields contain dots and have pink arrows pointing to them. Below the input fields is a checkbox labeled 'Show password'. At the bottom right, there is a blue 'Next' button with a pink arrow pointing to it.

I type in the Password I created, Confirm, and then click on Next.

Another Step?

Sometimes, the screen below appears ... however, it does not always appear.

If it appears, I enter my phone number, and apply the verification code which comes as an SMS.

Confirm you're not a robot

Get a verification code sent to your phone

Phone number

Google will verify this number via SMS (charges may apply).

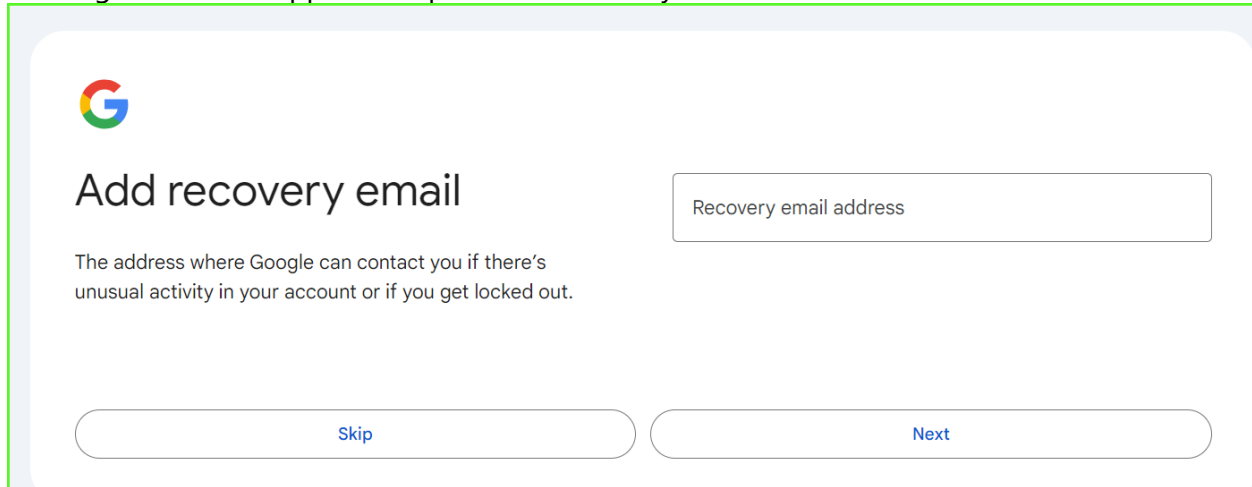

Next

Step 8. Provide a Recovery email

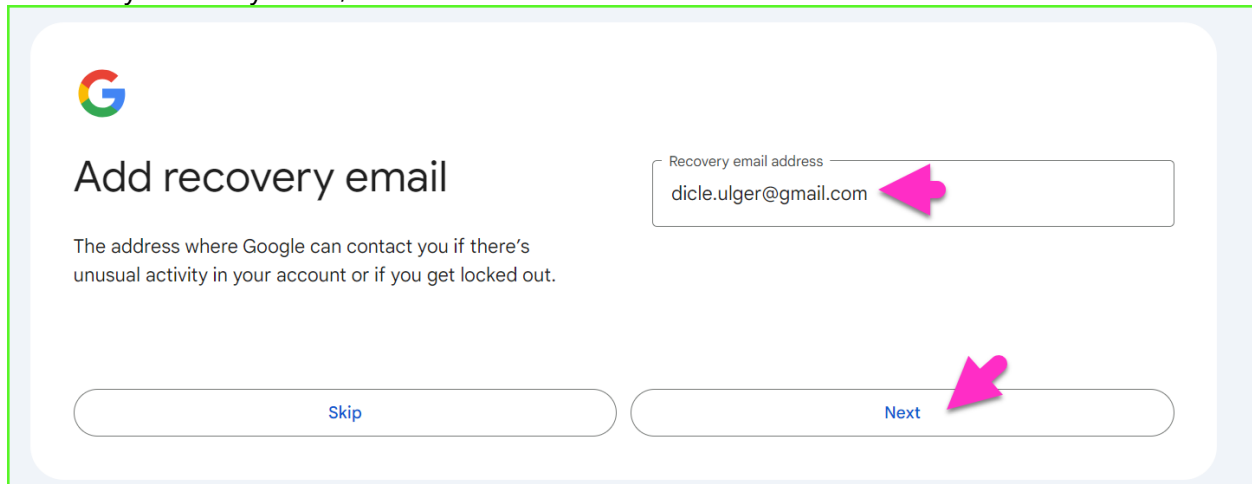

This step is to provide a Recovery email to Google.

Although it can be skipped, I do provide a Recovery email.

The screenshot shows the 'Add recovery email' screen. At the top left is the Google 'G' logo. Below it, the title 'Add recovery email' is displayed. Under the title, a subtitle reads: 'The address where Google can contact you if there's unusual activity in your account or if you get locked out.' To the right of the text is a text input field labeled 'Recovery email address'. At the bottom of the screen, there are two buttons: 'Skip' on the left and 'Next' on the right.

I enter my Recovery email, and then click on Next.

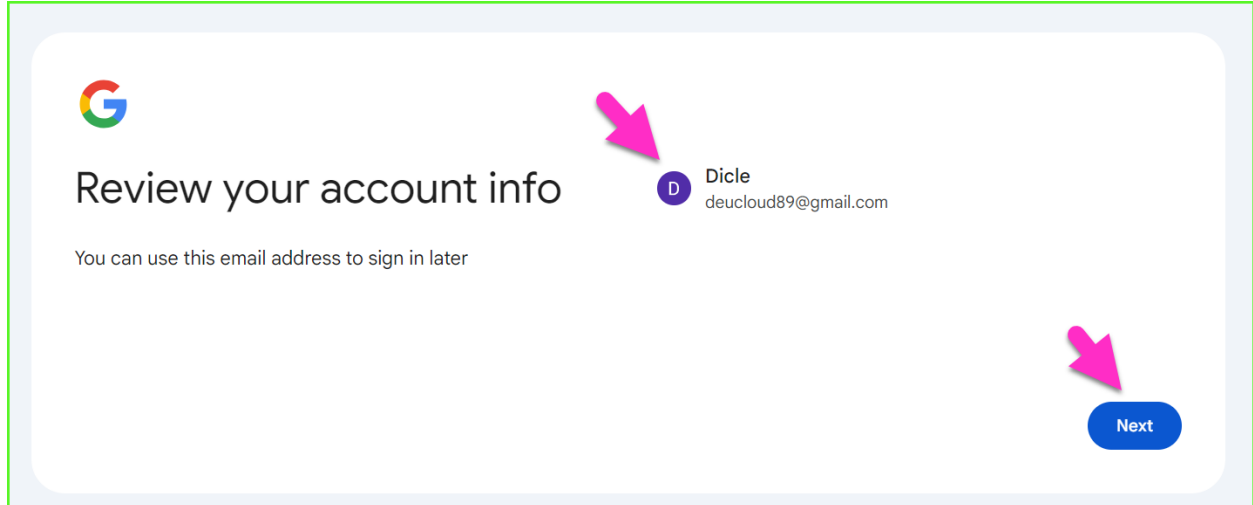

This screenshot shows the same 'Add recovery email' screen as the previous one, but with the email address 'dicle.ulger@gmail.com' entered into the 'Recovery email address' field. A pink arrow points to the email text. Another pink arrow points to the 'Next' button at the bottom right. The 'Skip' button remains on the bottom left.

Step 9. Review Your Account Info

Google is satisfied with the information I have provided.

It asks me to take a note of my Gmail address.

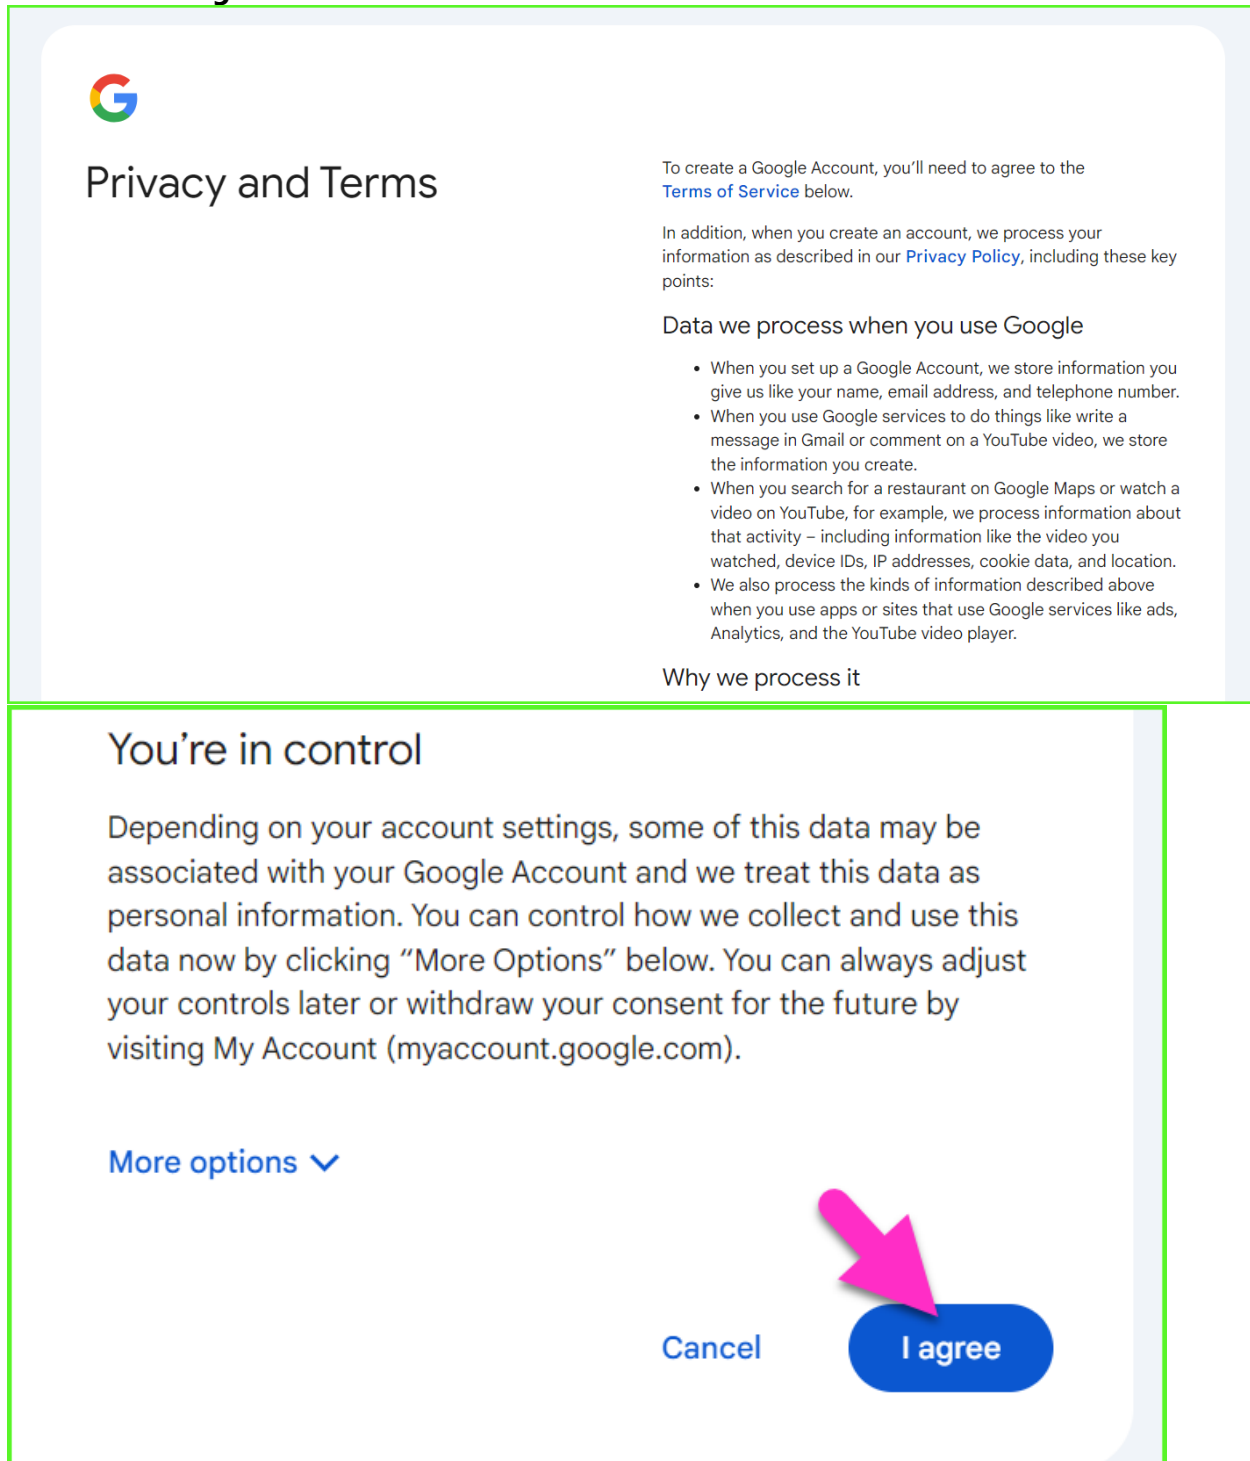

I click on Next.

Step 10. Privacy and Terms

Google displays the Terms of Service and the Privacy Policy.

I click on the **I agree** button at the bottom of the screen.

The screenshot shows the Google 'Privacy and Terms' screen. On the left, there is a large 'G' logo and the title 'Privacy and Terms'. On the right, there is text explaining that to create a Google Account, the user must agree to the Terms of Service and Privacy Policy. Below this, a section titled 'Data we process when you use Google' lists five bullet points: 1. When you set up a Google Account, we store information you give us like your name, email address, and telephone number. 2. When you use Google services to do things like write a message in Gmail or comment on a YouTube video, we store the information you create. 3. When you search for a restaurant on Google Maps or watch a video on YouTube, for example, we process information about that activity – including information like the video you watched, device IDs, IP addresses, cookie data, and location. 4. We also process the kinds of information described above when you use apps or sites that use Google services like ads, Analytics, and the YouTube video player. Below this list is the heading 'Why we process it'. At the bottom of the screen, there is a section titled 'You're in control' with a paragraph explaining that data may be associated with the Google Account and can be controlled via 'More Options' or 'My Account'. Below this paragraph is a link 'More options' with a downward arrow. At the bottom right, there are two buttons: 'Cancel' and 'I agree'. A large pink arrow points to the 'I agree' button.

Privacy and Terms

To create a Google Account, you'll need to agree to the [Terms of Service](#) below.

In addition, when you create an account, we process your information as described in our [Privacy Policy](#), including these key points:

Data we process when you use Google

- When you set up a Google Account, we store information you give us like your name, email address, and telephone number.
- When you use Google services to do things like write a message in Gmail or comment on a YouTube video, we store the information you create.
- When you search for a restaurant on Google Maps or watch a video on YouTube, for example, we process information about that activity – including information like the video you watched, device IDs, IP addresses, cookie data, and location.
- We also process the kinds of information described above when you use apps or sites that use Google services like ads, Analytics, and the YouTube video player.

Why we process it

You're in control

Depending on your account settings, some of this data may be associated with your Google Account and we treat this data as personal information. You can control how we collect and use this data now by clicking "More Options" below. You can always adjust your controls later or withdraw your consent for the future by visiting My Account (myaccount.google.com).

On the **Add payment method** window, I click on **Add credit or debit card**.

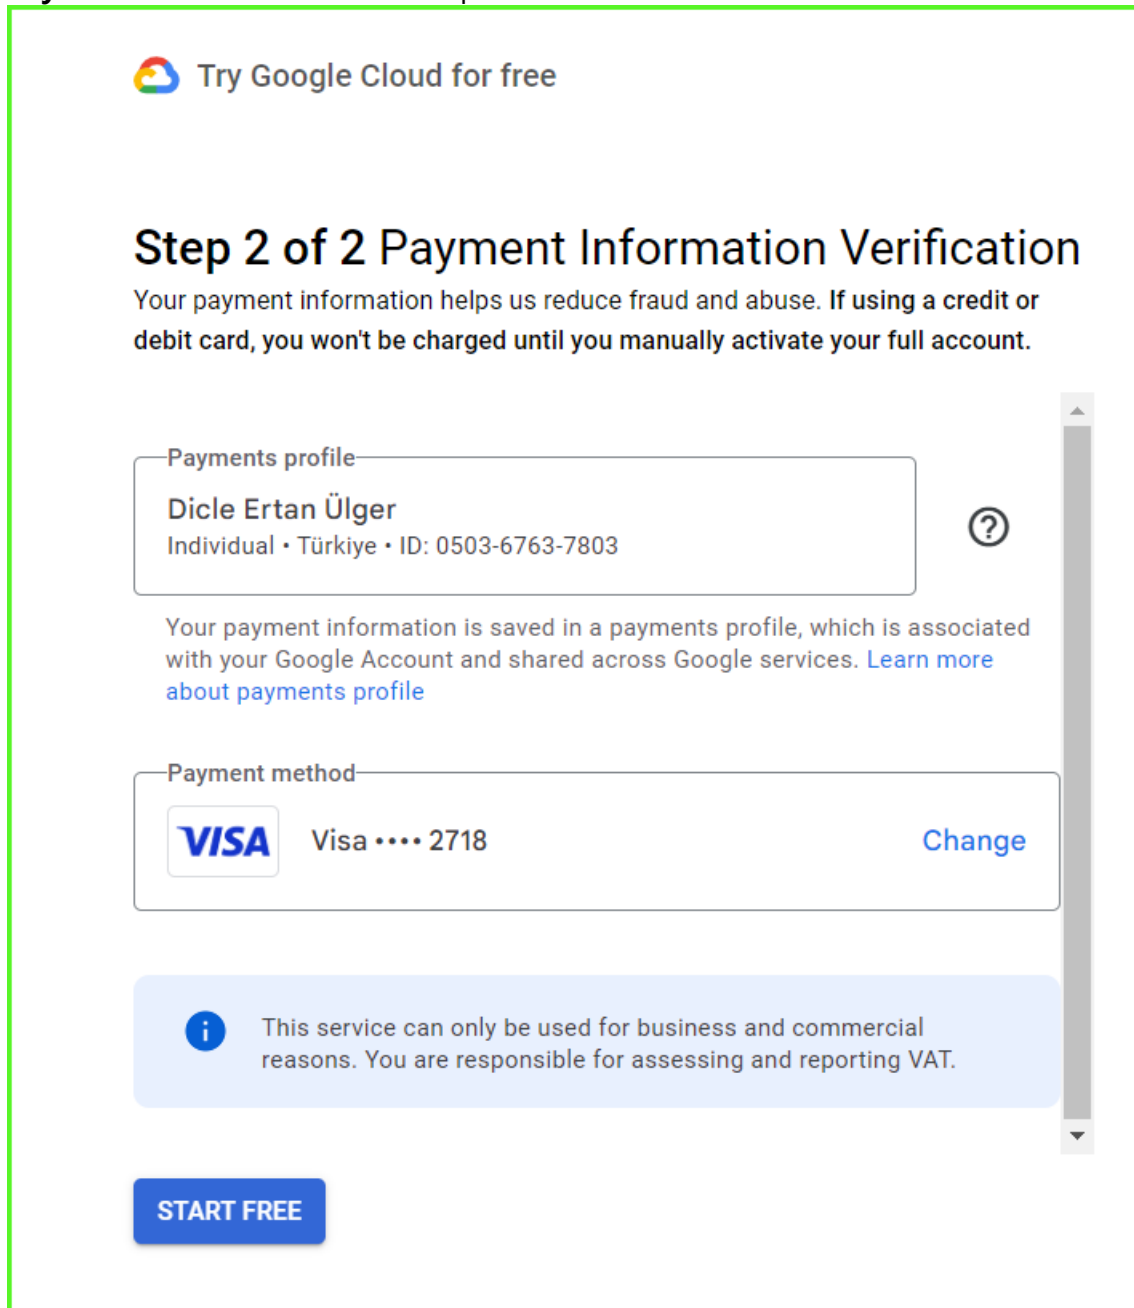

I fill in my **Virtual Card details** which has a **credit limit of approximately 1 USD equivalent in my local currency**.

And then I click on **Save Card**.

Payment method is now also completed.

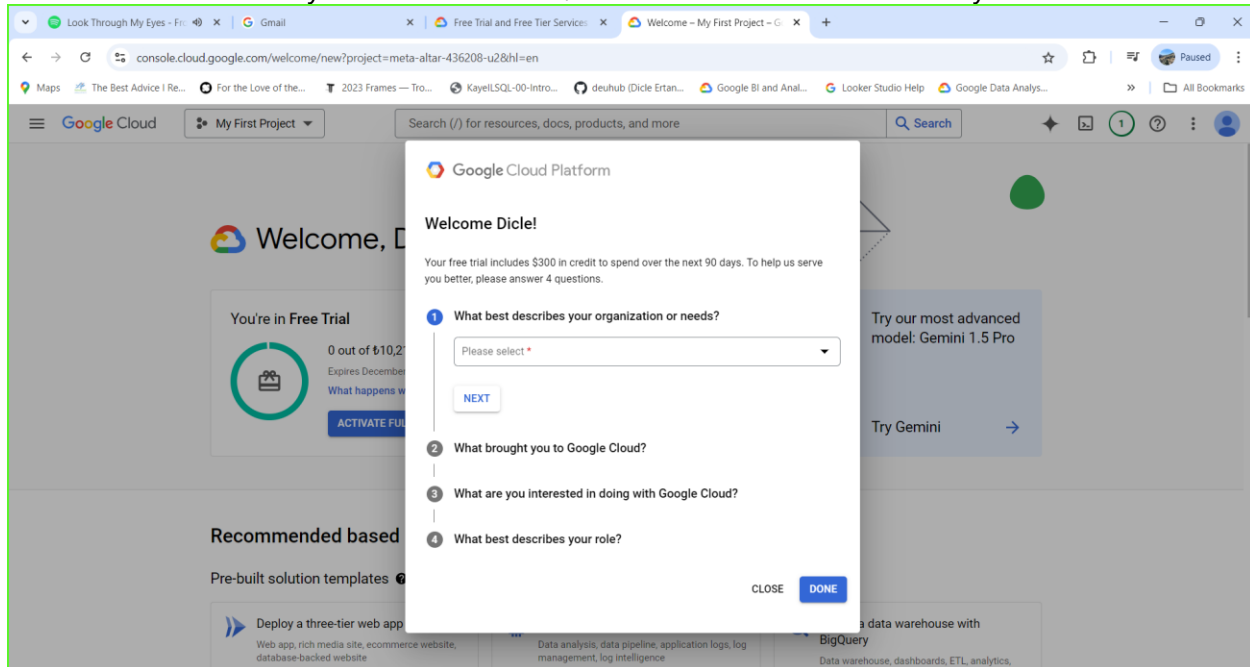

The screenshot shows the 'Try Google Cloud for free' interface. At the top, it says 'Try Google Cloud for free' with the Google Cloud logo. Below this is the heading 'Step 2 of 2 Payment Information Verification' followed by a subtext: 'Your payment information helps us reduce fraud and abuse. If using a credit or debit card, you won't be charged until you manually activate your full account.' There are two main sections: 'Payments profile' and 'Payment method'. The 'Payments profile' section shows the name 'Dicle Ertan Ülger', 'Individual • Türkiye • ID: 0503-6763-7803', and a help icon. Below it is a note: 'Your payment information is saved in a payments profile, which is associated with your Google Account and shared across Google services. [Learn more about payments profile](#)'. The 'Payment method' section shows a VISA card with the number 'Visa •••• 2718' and a 'Change' link. A light blue information box states: 'This service can only be used for business and commercial reasons. You are responsible for assessing and reporting VAT.' At the bottom is a blue 'START FREE' button.

I click on the **START FREE** button which is at the bottom of the screen.

How to Open a three-months-free GCP Account

A little while after I click on the **START FREE** button, Google welcomes me!
And informs me that my free trial includes \$300 in credit for the next 90 days.

However, I have a few questions to answer before I can start.

Step 12. Some Questions to Answer

I fill in the 4 questions below.

Your answers will naturally differ.

A screenshot of the GCP welcome form, showing the first question highlighted with a green border. The question is '1 What best describes your organization or needs?'. Below the question is a dropdown menu with 'Please select *' and 'Startup' selected. A 'NEXT' button is located below the dropdown. The rest of the form is visible but not highlighted.

4 What best describes your role?

Please select *

Engineer / Developer

How to Open a three-months-free GCP Account

I answer all the questions.
I click on **Done**.

The image shows a Google Cloud Platform (GCP) welcome dialog box. At the top, it features the Google Cloud Platform logo and the text "Welcome Dicle!". Below this, a message states: "Your free trial includes \$300 in credit to spend over the next 90 days. To help us serve you better, please answer 4 questions." There are four questions listed, each with a blue checkmark icon in a circle to its left. The first three questions are: "What best describes your organization or needs?", "What brought you to Google Cloud?", and "What are you interested in doing with Google Cloud?". The fourth question, "What best describes your role?", is currently selected and highlighted with a blue circle around the question number. Below the fourth question is a dropdown menu with the text "Please select *" and "Engineer / Developer" as the selected option. A pink arrow points to the "DONE" button, which is a blue button with white text. To the left of the "DONE" button is a "CLOSE" link.

Google Cloud Platform

Welcome Dicle!

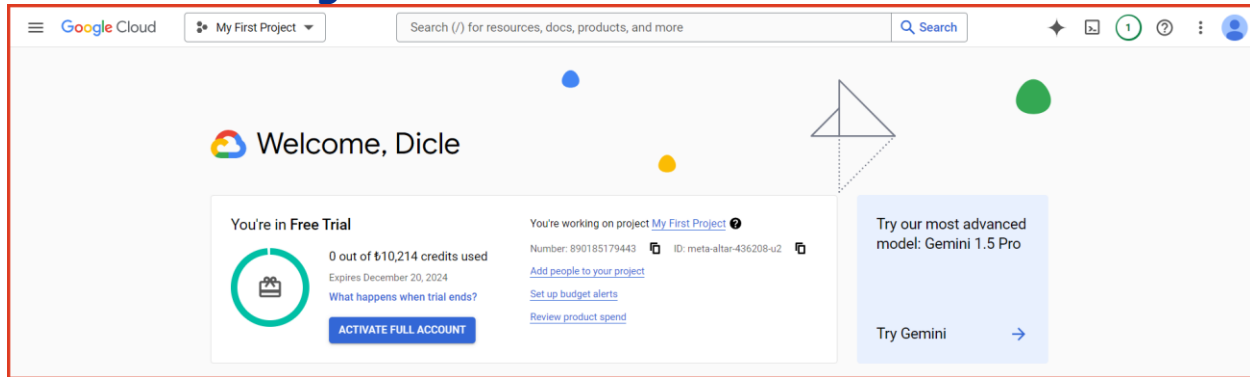

Your free trial includes \$300 in credit to spend over the next 90 days. To help us serve you better, please answer 4 questions.

- ✓ What best describes your organization or needs?
- ✓ What brought you to Google Cloud?
- ✓ What are you interested in doing with Google Cloud?
- 4 What best describes your role?
Please select *
Engineer / Developer

CLOSE DONE

When click on Done, Google takes me to the Cloud Console.

Here is the Google Cloud Console!

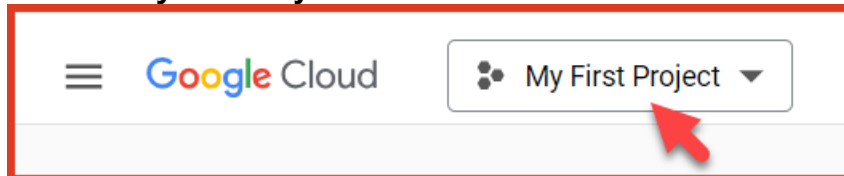

I **DO NOT** click on ACTIVATE FULL ACCOUNT.

I will work on a free account for three months.

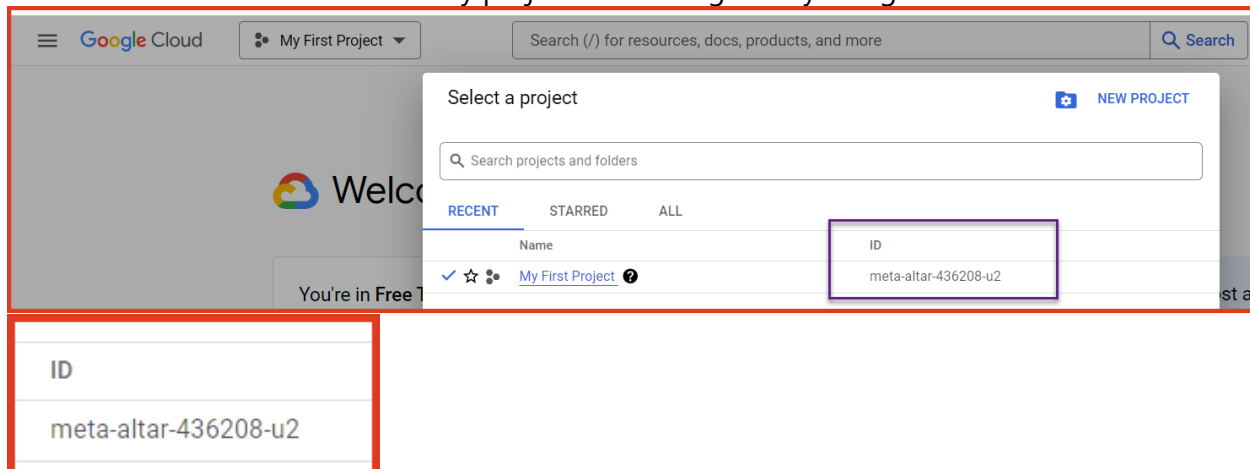

At the end of three months, I can open another free account, just the same way I have just done.

Google assigned me a Project for my free account.

I click on **My First Project**.

I can see the name and the ID of my project. The ID is given by Google.

This is it.

We are good to go.

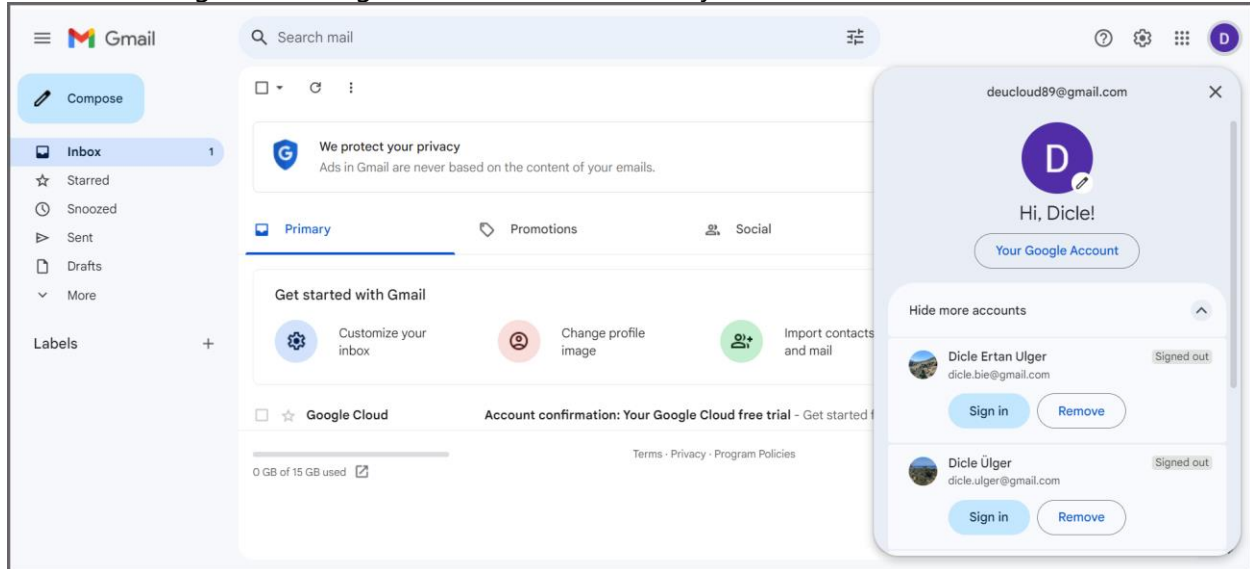

If I want to access my Google Cloud Console at any time, I use the address below, and preferably in a Chrome browser.

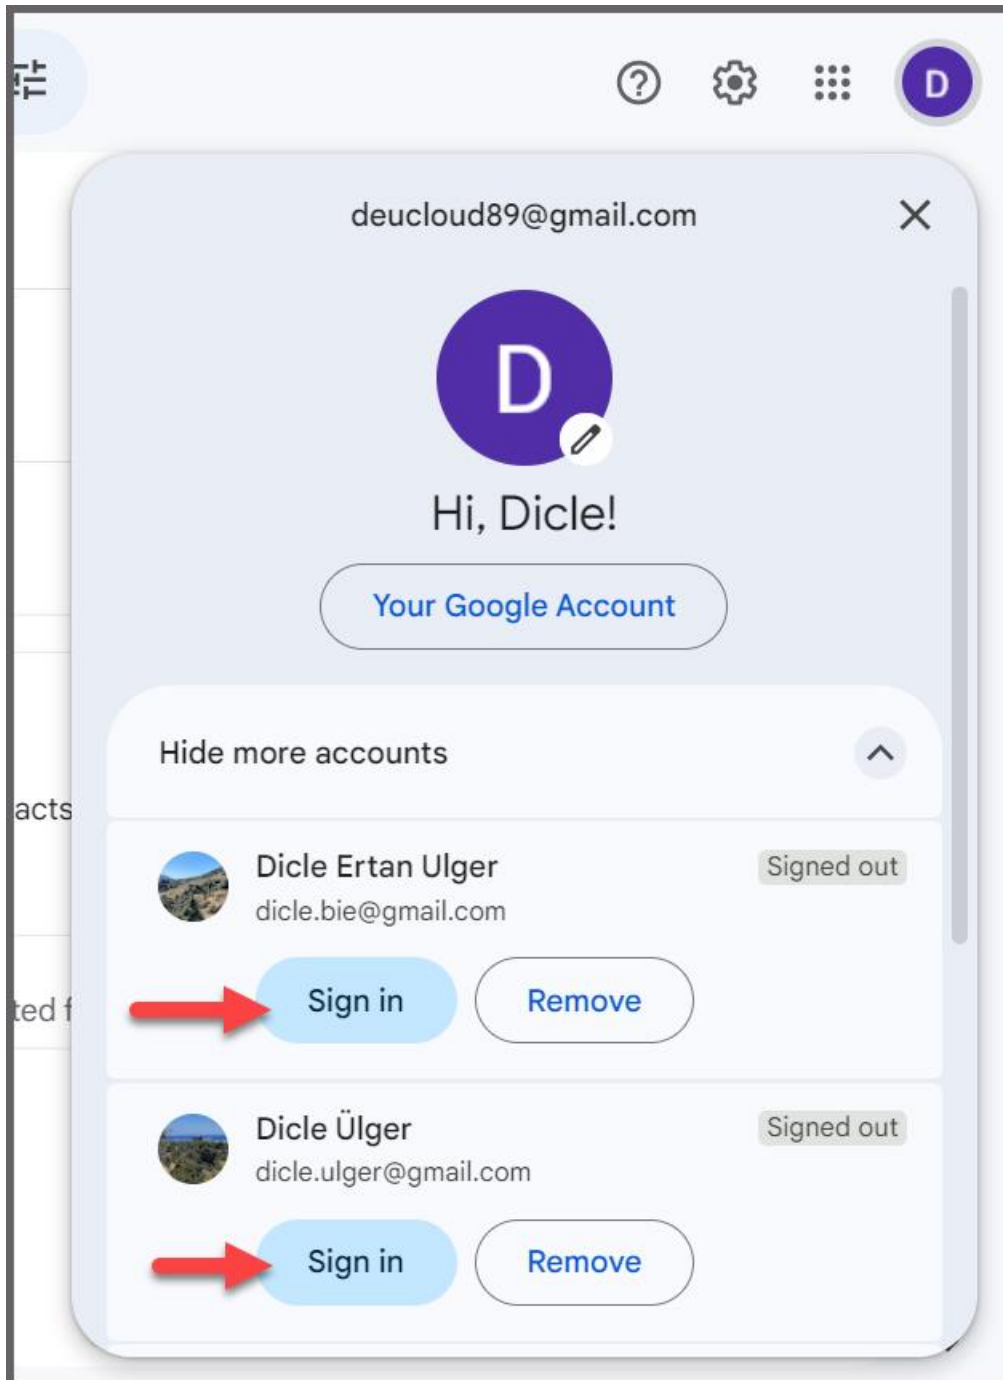

<https://console.cloud.google.com/>

Post Process: Sign Back in to your Gmail Accounts

We have completed the process of opening a free GCP account.

We can now sign in to our gmail accounts we use daily.

I click on the Sign in buttons, and type in my password, and any other verification Google asks from me.

The End

This is the end of the document on opening a free GCP (Google Cloud Platform) account for three months.

Thanks very much Google!

There is now a new world at our fingertips.

*The world is our oyster.
It is up to us to find the pearls.*

I wish you courage and good health always, luck and success in all of your endeavours.
